TRAINING PLAN

10K Running

RUNNING	BEGINNER	8 WEEKS

Welcome

As an athlete and a parent I know how challenging it can be to train effectively for events like triathlons, marathons or cycling events. I have over 20 years of experience helping amateur athletes surpass their goals, while still making sure they have quality time available for family, friends and career.

To help you train effectively, I have decided to offer a subset of our extremely popular plans for free. Usually, our plans include email coach access, personal intensity zones and advanced tracking software. But these plans provide the basics for free to give you a taste.

It would mean the world to me if you tried a 1-month free trial of Unlimited Athlete, my low-cost coaching program, but for now, feel free to get used to my style of training. Please use and share this plan as much as you like.

FAQS

Who is the plan suitable for?

This training plan is suitable for Beginner or time-limited runners, aiming to get in peak shape for a 10K event. With just 8 weeks to go until event-day, this plan assumes you are currently able to run/jog for up to 25mins. The plan builds up to race day, and helps improve your fitness and confidence. A good way to avoid injury and stay motivated is by following an expertly designed training plan. People who follow a training plan have been shown to be twice as likely to succeed in reaching their goal.

How much training is involved?

Average weekly training hours are 2:27 with the biggest week at 3:08 hours. This includes 3 to 4 runs and a 45 minute strength and conditioning session. There is usually 1 workout per day, with 2 or 3 days off each week.

The fourth week is an active recovery week, with less training, to help your body recover and adapt.

How to get started

Do your best to follow the workouts below, ideally in their given order.

To help you train at the right levels, we use five training zones, based on feel or heart rate.

If you use heart rate, we have a calculator that can create your training zones:

www.myprocoach.net/hr-zones

TRAINING ZONES

	Intensity Description	% of Your Max Heart Rate
Z1	Easy (Recovery)	♥ 68-73%
Z2	Steady (Endurance)	♥ 73-80%
Z3	Moderately Hard (Tempo)	♥ 80-87%
Z4	Hard (Threshold)	♥ 87-93%
Z5	Very Hard (VO2 Max)	♥ 93-100%

GLOSSARY

Key	Description
Z1	Training Zone 1
Z2	Training Zone 2
Z3	Training Zone 3
Z4	Training Zone 4
Z5	Training Zone 5

Week 1

Build Phase 1: 2 hrs 22 mins

Phil's tip

This plan includes a strength and conditioning workout each week.

	MON	TUE	WED	THU	FRI	SAT	SUN
SESSION 1		22 mins	25 mins	45 mins	25 mins		25 mins
	Recovery Day	Progression Run	Aerobic Endurance	Strength and Conditioning	Strength and Endurance	Recovery Day	Aerobic Endurance
		Mod. Hard/Tempo	Steady/Endurance	Adaptation Phase	V. Hard/VO2 Max		Steady/Endurance
	Allows for recovery whilst promoting adaptation to previous training stresses. Helps you get faster and keep injuries at bay.	Main Set: 4 mins in low Z2, 3 mins in mid Z2, 3 mins in upper Z2, 3 mins in low Z3, 2 mins in mid Z3, 2 mins in upper Z3, 2 mins in low Z4, Warm Down: 5 mins in low Z2. This tough workout will improve your running stamina and teach the body and mind to stay strong throughout your race.	All in Z2. These runs are to be done slowly. They will gradually build your endurance and increase your efficiency. If you do them faster, you'll increase your injury risk for no real benefit.	Please refer to the guide in Phil's Tips.	Warm Up: 5 mins in Z2. Main Set: 5 x (1 min in low Z5 up a hill + 2 min recoveries in Z1-Z2). Warm Down: 5 mins in Z2. The gradient should be 3 to 6%.		Easy or steady run all in low to mid Z2. You should be able to chat at this effort. This is your long run and will gradually increase in duration. If you need to include some walking sections in these runs, in order to keep your heart rate down, that's fine.

Week 2

Build Phase 1: 2 hrs 40 mins

Phil's tip

Consistency is the golden ticket. Think of each completed workout as another jelly bean in the jar. When the jar is full, you're in peak race shape.

	MON	TUE	WED	THU	FRI	SAT	SUN
SESSION 1		25 mins	30 mins	45 mins	30 mins		30 mins
	Recovery Day	Progression Run	Aerobic Endurance	Strength and Conditioning	Strength and Endurance	Recovery Day	Aerobic Endurance
		Mod. Hard/Tempo	Steady/Endurance	Adaptation Phase	V. Hard/VO2 Max		Steady/Endurance
		Main Set: 5 mins in low Z2, 3 mins in mid Z2, 3 mins in upper Z2, 5 mins in low Z3, 3 mins in mid Z3, 3 mins in upper Z3, Warm Down: 5 mins in low Z2.	All in low to mid Z2.	Please refer to the guide in Phil's Tips in Week 1.	Warm Up: 5 mins in Z2, 2 x (30 secs accelerating from Z2 to Z4 + 30 sec recoveries in Z1). Main Set: 6 x (1 min in low Z5 up a hill + 2 min recoveries in Z1-Z2). Warm Down: 5 mins in Z2.		Easy or steady run all in low to mid Z2.
SESSION 2							

Week 3

Build Phase 1: 2 hrs 49 mins

Phil's tip

During your Zone 2 workouts, you should theoretically feel able to chat throughout.
If not, slow down

	MON	TUE	WED	THU	FRI	SAT	SUN
SESSION 1		28 mins	30 mins	45 mins	31 mins		35 mins
	Recovery Day	Progression Run	Aerobic Endurance	Strength and Conditioning	Strength and Endurance	Recovery Day	Aerobic Endurance
		Mod. Hard/Tempo	Steady/Endurance	Endurance Phase	V. Hard/VO2 Max		Steady/Endurance
		Main Set: 3 mins in low Z2, 5 mins in mid Z2, 4 mins in upper Z2, 5 mins in low Z3, 4 mins in mid Z3, 4 mins in upper Z3, Warm Down: 5 mins in low Z2.	All in low to mid Z2.	Please refer to the guide in Phil's Tips in Week 1.	Warm Up: 5 mins in Z2, 3 x (30 secs accelerating from Z2 to Z4 + 30 sec recoveries in Z1). Main Set: 6 x (1 min in low Z5 up a hill + 2 min recoveries in Z1-Z2). Warm Down: 5 mins in Z2.		Easy or steady run all in low to mid Z2.
SESSION 2							

Week 4

Active Recovery Week: 1 hrs 52 mins

Phil's tip

In my training plans, every 4th week is an active recovery week.
This gives your body a chance to recover and adapt..

	MON	TUE	WED	THU	FRI	SAT	SUN
SESSION 1		25 mins	45 mins		22 mins		20 mins
	Recovery Day	Tempo Run	Strength and Conditioning	Recovery Day	Speed Run	Recovery Day	Aerobic Endurance
		Hard/Threshold	Endurance Phase		V. Hard/VO2 Max		Steady/Endurance
	It's vital to make the most of this recovery week. You need to fully recover and start the next training phase feeling fresh and eager to train hard. There is enough training during the recovery week so that you won't lose fitness.	Warm Up: 10 mins in Z2. Main Set: 10 mins in low Z4. Warm Down: 5 mins in Z2.	Please refer to the guide in Phil's Tips in Week 1.		Warm Up: 5 mins in Z2, 3 x (30 secs accelerating from Z2 to Z4 + 30 sec recoveries in Z1). Main Set: 3 x (2 mins in Z5 + 60 secs in Z1). Warm Down: 5 mins in Z2.		Easy or steady run all in low to mid Z2.

Perfect Plan!

Fantastic training plan from MyProCoach to lead to my first full-distance IRONMAN finish at Arizona in 2022. During the plan, I improved in all three disciplines and PR'd an IRONMAN 70.3 tuneup race by 11 min.

I'm an Unlimited Athlete and love having coach access & a premium membership with TrainingPeaks.

It really works- trust the plan!

I exceeded my goal of not only finishing but well under my ideal goal. I 100% attribute this to Phil Mosley's 20-week 70.3 plan. I stuck to the plan and I'm beyond ecstatic to say I completed the IRONMAN 70.3 Puerto Rico!

The training truly changed my life and changed the way I think about things I'm able to do now.

I'm forever grateful.

Love my Unlimited Athlete plan!

I've trained for two years with my Unlimited plan. The best part is that I can request my training plan at any moment!

I did IRONMAN Florida 70.3 last weekend, I'm feeling great and really happy with my result.

I totally recommend MyProCoach!
