# Welcome

As an athlete and a parent I know how challenging it can be to train effectively for events like triathlons, marathons or cycling events. I have over 20 years of experience helping amateur athletes surpass their goals, while still making sure they have quality time available for family, friends and career.

To help you train effectively, I have decided to offer a subset of our extremely popular plans for free. Usually, our plans include email coach access, personal intensity zones and advanced tracking software. But these plans provide the basics for free to give you a taste.

It would mean the world to me if you tried a 1-month free trial of Unlimited Athlete, my low-cost coaching program, but for now, feel free to get used to my style of training. Please use and share this plan as much as you like.

## FAQS

### Who is the plan suitable for?

This short training plan is suitable for Advanced amateur runners, aiming to achieve peak Marathon fitness.

With just 12 weeks to go until event-day, this plan assumes you are currently able to run for up to 1hr 30mins. The plan builds up to race day, and helps improve your fitness and confidence.

People who follow a training plan have been shown to be twice as likely to succeed in reaching their goal.

### How much training is involved?

Average weekly training hours are 6:33 with the biggest week at 8:11 hours. This includes 6 to 7 runs and a 45 minute strength and conditioning session.

There is usually 1 workout per day, with 1 day off each week.

Every fourth week is an active recovery week, with less training, to help your body recover and adapt.

### How to get started

Do your best to follow the workouts below, ideally in their given order.

To help you train at the right levels, we use five training zones, based on feel or heart rate.

If you use heart rate, we have a calculator that can create your training zones:

www.myprocoach.net/hr-zones

## TRAINING ZONES

| | Intensity Description | % of Your Max Heart Rate |
|---|---|---|
| Z1 | Easy (Recovery) | ♥ 68-73% |
| Z2 | Steady (Endurance) | ♥ 73-80% |
| Z3 | Moderately Hard (Tempo) | ♥ 80-87% |
| Z4 | Hard (Threshold) | ♥ 87-93% |
| Z5 | Very Hard (VO2 Max) | ♥ 93-100% |

## GLOSSARY

| Key | Description |
|---|---|
| Z1 | Training Zone 1 |
| Z2 | Training Zone 2 |
| Z3 | Training Zone 3 |
| Z4 | Training Zone 4 |
| Z5 | Training Zone 5 |

**Perfect Plan!**

Fantastic training plan from MyProCoach to lead to my first full-distance IRONMAN finish at Arizona in 2022. During the plan, I improved in all three disciplines and PR'd an IRONMAN 70.3 tuneup race by 11 min.

I'm an Unlimited Athlete and love having coach access & a premium membership with TrainingPeaks.

**It really works- trust the plan!**

I exceeded my goal of not only finishing but well under my ideal goal. I 100% attribute this to Phil Mosley's 20-week 70.3 plan. I stuck to the plan and I'm beyond ecstatic to say I completed the IRONMAN 70.3 Puerto Rico!

The training truly changed my life and changed the way I think about things I'm able to do now.

I'm forever grateful.

**Love my Unlimited Athlete plan!**

I've trained for two years with my Unlimited plan. The best part is that I can request my training plan at any moment!

I did IRONMAN Florida 70.3 last weekend, I'm feeling great and really happy with my result.

I totally recommend MyProCoach!
